How I can help

In my role, I can serve as a confidential resource for students, staff, and faculty. I can provide emotional support in addition to information regarding violence and supports. Feel free to share my information with anyone who may find it helpful.

Support at KHCC

KHCC provides a range of support within the Bronx including case management for concerns such as housing and finances, programs for kids from early childhood through college readiness, workforce development programming, and much more. All are welcome to reach out to me to see what support can be there!

THANK YOU!

Hi all!

I hope everyone is having a calm end to the semester. I've shared this news in a few circles but wanted to ensure that I reached everyone. I have made the challenging decision to step away from my role here at KHCC. While I love the work we do, I was offered a position that includes a move abroad and was not able to pass up this opportunity.

I cannot thank each of you enough for your support during my time in this role. I have found this to be an incredible space for collaboration and have truly enjoyed working with each of you. I am saddened to be stepping away sooner than planned but excited to see the work continue from afar!

Included in this newsletter are some updates about supports during this transition. Please feel free to reach out to them! Additionally, keep an eye out for an email from the new EIE Coordinator when they start the role.

Thank you all again for welcoming me into your communities!

Best,
Nicole

KHCC RESOURCES

KHCC can continue to be a support for student, staff, and faculty survivors on campus. Below is the contact information for Alex Martinez (Director of Adult Services), Taylan Stulting (previous EIE Coordinator and current Training Consultant) and Catherine Mykytiuk (Program Director of Changing Futures). Alex, Taylan and Catherine all have a great understanding of EIE and the work we do in this program. They can also connect survivors and community members to KHCC programs for supports including trauma-informed therapy, case management, and youth programs.

Please feel free to reach out to Alex, Taylan, and Catherine with any EIE related concerns and they will discuss options for support during this transition.

EIE RESOURCES

Throughout this transition, I have collaborated closely with Jamie Pytlik, EIE Coordinator at the Bronx District Attorney's Office. Jamie will still be a support for Bronx-based campuses and will support the transition of the new KHCC EIE Coordinator. Her contact information is below for staff, students, and faculty to use as a confidential resource or for requests for prevention programming
