

STATE/TERRITORY SPECIFIC INFORMATION FOR MANDL ONLINE PROGRAMS

It is important that Mandl online students are aware of their state/territory requirements for enrollment and employment. Requirements vary by state/territory. The student's physical location is determined at the time of enrollment based on the physical location/address provided by the student. Mandl bases its determination of the student location through the student's self-disclosure on the enrollment agreement.

Therefore, students are required to notify Mandl (The office of Registrar (epapuli@mandl.edu or the Dean (atejada@mandlacademics.com) and request authorization if they plan to move to or intend to work in any other state/territory following enrollment. Students who do not notify Mandl prior to moving into a non-enrollment state/territory may be officially withdrawn from the program. These policies are consistently applied to all students.

In order to comply with U.S. Department of Education regulations regarding distance education and professional licensure, Mandl is required to make the following disclosure with respect to professional licensure outside the state of NY:

Mandl cannot confirm whether a particular program meets requirements for professional licensure outside of the State of New York, including your ability to gain employment in your respective discipline.

NC-SARA does not deal with professional licensing board approval for any courses or programs leading to professional licensure. If you are not a resident of NY and you are taking an online course or hybrid program leading to professional licensure, please contact the dean of the **degree program** at Mandl to discuss licensure options prior to beginning your course of study. Please contact the appropriate licensure board(s) in any state you may want to pursue licensure prior to beginning a Mandl academic program in order to determine whether the program meets licensure requirements. Students may view the disclosure for each program or certificate to know which state Mandl curriculum:

- meets NY state educational requirements for licensure or certification,
- does not meet NY state educational requirements for licensure or certification, or
- has not made a determination.

Mandl College cannot provide verification of an individual's ability to meet licensure or certification requirements unrelated to its educational programming. Such individual determinations are made by state licensing boards and are fact-specific determinations.

This disclosure does not provide any guarantee that any particular state licensure or certification entity will approve or deny your application. Furthermore, this disclosure does not account for changes in state law or regulation that may affect your application for licensure and occur after this disclosure has been made. Enrolled students and prospective students are strongly encouraged to contact their State's licensure entity.

Mandl has designed an educational program curriculum for the licensure providing program areas of study - that if successfully completed is sufficient to meet the licensure and certification requirements for an advanced practice license in the state of New York.
